relations.

WORK EXPERIENCE

Manager

Livestock Family Company - Medellin, Colombia.
January 2017 to April 2019

This is a familiar enterprise with a traditional livestock and genetic center in Colombia since 1960´s. This is a small-medium size enterprise with more than 20 employees and with sales over the 2 million dollars in a year. During my work in this company I was in charge of accounting management and making financial decisions based on the company's income statements as well as the innovation of new ways of managing resources and the application of new technologies to improve the company´s processes and productivity.

Assistant at Fixed Income Table, Asset Management Department at Bancolombia.

Bancolombia - Medellin, Colombia.
June 2016 to January 2017

While I was doing the semester of industry (internship) in Bancolombia, I was assigned different tasks based on the administration and management of financial assets, mainly fixed income instruments. In order to support the manager of one of the largest investment portfolios in the country (Colombia), such as "Bancolombia's fiducuenta". In this position, I develop macros in Excel to facilitate the operational tasks of the different people working in this department and also learn to help in the decision making of new ways and assets to invest on, always aiming to improve profitability
